

# Mathematics Department University of Fribourg

The Department of Mathematics at the University of Fribourg (Switzerland) invites applications for one or several

## PhD Positions in Mathematics

in any of the research areas represented at the Department of Mathematics such as Geometry, Topology, Algebra, Combinatorics, Geometric Analysis, Probability Theory, or Numerical Analysis.

Candidates must have a M.Sc. degree in Mathematics or an equivalent education. A good command of German or French or the willingness to learn one of the two languages within a relatively short period of time is required.

The PhD positions are on a full-time basis and come with a competitive salary and teaching assistantship. PhD students are integrated in the Swiss Doctoral Program of Mathematics, jointly offered with neighboring universities.

For details on how to apply, see  
<https://www3.unifr.ch/math/en/info/open-positions.html>
